

## CHEMILITE UP-40P

**CHEMILITE UP-40P** is an almighty cleaning chemical applicable for any metal materials-casting, steel, copper, aluminum at any temperature. Also is good in Oil-Water separation property. By eliminating floating oil, the life is prolonged and leads cost saving. Further the recycling is realized by adding the special additive "X".

### CHARACTERISTICS

- \* Recycling is able (according to the quick oil-water separation property, the deterioration is much less and saves disposal water).
- \* Prolong the liquid life.
- \* Powerful degreasing effect without defectiveness to the cleaning works.
- \* Effective cleaning power at any concentration and temperature.
- \* Very low bubbling and applicable for high pressure spraying.
- \* High effective in rust prevention.

### APPLICATIONS

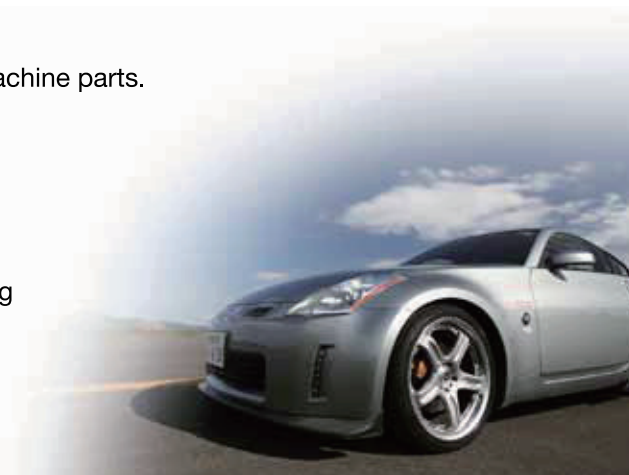

- \* For car parts in steel, cast iron, aluminum, and machine parts.
- \* Concentration : 2-3%

### PHYSICAL PROPERTIES

- \* Refer to MSDS for more details

### CAUTION

- \* Oil-Water separation property may differ according to the oil.
- \* PACKAGE : 18kg/can. 200kg/drum
